 For the Planet

 For people

 For stakeholders

ESG Strategy Echo-Archicom 2030

The Echo Investment-Archicom Group conducts its business responsibly. We provide people with comfortable places to live, as well as good space to work, run daily errands and relax. We are aware of the social importance of our business, but also of its costs. That is why for years we have been taking actions that have a positive impact on the environment, communities and all stakeholders, reducing costs and compensating the environment for losses resulting from the development activity. Our ESG Strategy - Echo-Archicom 2030 organizes these activities, indicates priorities and emphasizes the values we follow. It contributes to the UN 17 Sustainable Development Goals (SDGs).

FOR THE PLANET

3 GOOD HEALTH
AND WELL-BEING

6 CLEAN WATER
AND SANITATION

7 AFFORDABLE AND
CLEAN ENERGY

9 INDUSTRY, INNOVATION
AND INFRASTRUCTURE

11 SUSTAINABLE CITIES
AND COMMUNITIES

13 CLIMATE
ACTION

15 LIFE
ON LAND

Reducing CO₂ emissions

The construction and operation of buildings is one of the main sources of the carbon footprint in the world. That is why, already in 2023, we are starting the process of reducing emissions in our own office spaces, but above all in the projects we are building, so that in 2030 - in accordance with the Paris Agreement - they will be carbon neutral.

TARGETS

2023

first measurement of own carbon footprint (scope 1 and 2)

2023/2024

screening of 3 pilot projects (office, apartments for rent & residential buildings) to reduce CO₂ and increase energy efficiency

2024/2025

implementing new procedures and processes to limit future projects' carbon footprint based on pilot building experience

2024

establishing the reduction targets for next years (scope 1 and 2)

2030

all new buildings of the Group to be **net-zero**

Protecting urban greenery

We make every effort to ensure that each of our projects in the city improves the conditions of greenery and biodiversity in the immediate vicinity.

TARGETS:

2023/2024

tree protection rules
implemented and
promoted in the Group

since 2023

plant at least 2 times
more trees than we
cut down

Preventing urban sprawl

We want our projects to be developed in areas that have already been urbanized, which have infrastructure and provide comfort of functioning in the city. We will avoid the use of suburban, green, forest or agricultural areas and eliminate the need for inefficient construction of urban infrastructure.

TARGETS:

100%

of projects to be built
within city borders

90%

of the acquired plots
to be brownfield
(previously urbanised
areas) — throughout
the whole period
2023-2030

50%

of the portfolio to be
destination projects

Using green or renewable energy

Traditional energy resources from fossil fuels are running out, and their use is responsible for global warming. That is why we want to promote energy from renewable sources by using it both for our own needs and in our projects.

TARGETS:

Providing green energy

2023

to all Echo and Archicom's own offices

2025

to all Echo office and retail buildings

2026

to all of CitySpace locations

to all of our construction sites

FOR PEOPLE

3 GOOD HEALTH
AND WELL-BEING

5 GENDER
EQUALITY

8 DECENT WORK AND
ECONOMIC GROWTH

10 REDUCED
INEQUALITIES

Equal opportunities and wellbeing of Echo and Archicom's employees

We are a good, fair and stable employer. The competences of our employees is our most important asset: we want to put to use the employees' potential, give them development opportunities, and support them in their activities outside of work.

TARGETS:

2025

equal chance of promotion: women and men to hold

45-55%
of key executive positions

2026

average number of
remaining vacation days
per person at the year end to

decrease to 10

2029

closing gender pay gap

between employees
on similar positions and
scope of responsibility

Safety and wellbeing on construction sites

We take responsibility for all people working on our construction sites: for their safety, health, and wellbeing. We also want to efficiently manage relations with neighbours of our projects.

TARGETS:

zero fatal accidents

implementing **high standards of social facilities** on all construction sites until 2026

measuring and increasing satisfaction of construction workers

establishing rules of neighbours' **complaints management**

FOR STAKEHOLDERS

5 GENDER
EQUALITY

8 DECENT WORK AND
ECONOMIC GROWTH

10 REDUCED
INEQUALITIES

16 PEACE, JUSTICE
AND STRONG
INSTITUTIONS

Transparency, equality, and highest standards of management

Ethics, legal awareness, and maximum transparency are the values that directly affect the perception of the Company among investors and stakeholders. The Echo Investment Group intends to further develop high standards of corporate governance and management.

TARGETS:

Since 2026 women to account for minimum 40% of the Supervisory Boards of each Company or minimum 33% of the Supervisory and the Management Boards counted jointly

Compliance with the [WSE Best Practices](#) — annual analyses of possibility to reduce the number of non-conformities

Promoting the [ethics culture](#) among employees through regular [training, updates and awareness checks](#)

Developing [awareness of the ESG](#) in the Management and Supervisory Boards
